SIX BUILDINGS BURN TO FOUNDATIONS ON STILE FARM SUNDAY

Efforts of Fire Department
Saves \$12,000 Home Al-
though Fire Loss Will Reach
Thousands.

Quick work and the Mishawaka auto fire truck were all that saved the \$12,000 home of Lee Stile south of the city Sunday evening when sparks and fire brands from burning buildings on his property threatened his house. A new barn built about three years ago, two corn cribs, a tool house, a chicken coop and a new shed were burned to the ground and several hundred dollars worth of timber were also lost. The cause of the fire has not yet been learned but two boys employed on the farm left the house after supper with lighted lanterns for the barn and it is thought that they dropped one of them or kicked one down.

Soon after the fire started the Mishawaka fire department was called and the motor truck was sent to the scene. A good run was made until they struck the sand on the Spruce road. Chief Bussie stated after the fire that he would have made even better time had it not been for an automobile in front of the machine which would hardly make the road. The heavy fire truck was compelled to go so slow that when in the deepest place the engine went dead. When one of the men went to crank it sand had to be dug from under the crank so as to start the engine. When the firemen arrived the barn was already half burned and the fire was beyond control, and the house was burning in three places. The roof of the north veranda was burning, the gable at the west end of the house and that of the south end were also burning and the firemen were kept busy trying to save the house.

Six pigs which were kept in the barn were cremated and several hundred dollars worth of new hay in the barn loft. Both corn cribs which were burned were filled to the top and many tools and valuable farm implements were lost. The fire started about 7 o'clock and the firemen did not leave the scene until after 10:30 o'clock. The glare in the sky from the blaze could be seen for many miles. Two large oil tanks filled to capacity also caught fire, and the heat and smoke from the tanks added great hindrance to the firemen.

As the barn and other burning building were but 200 feet from the house the heat was terrific and the men were completely worn out when they left. Several of the firemen practically ruined their uniforms by blazing sparks and brands dropping on them. The men were compelled to wear their heavy coats as a protection.

Several hundred people from the city flocked to the fire as it was the biggest in many years in this community although Mr. Stile had a heavy fire loss about six years ago. No estimate of the damage could be made Sunday night but it is known that the loss will amount to several thousand dollars.

LAWYERS DISCUSS SALARY CITY JUDGE SHOULD GET

The meeting of the Mishawaka Lawyers' club was held Saturday evening in the grill room of the Mishawaka hotel and was largely attended. The principal discussion of the meeting was the amount of yearly salary a city judge should receive. Nearly every member of the club is an aspirant to the office in the coming city campaign. The discussion was very lively and a four course luncheon. Another meeting of the club will be held at the hotel next month.

MISHAWAKA BOYS SERIOUSLY INJURED SATURDAY EVENING

Ennoc McKindley and Aloy Besinger Badly Hurt in Elkhart Auto Accident—Bursting of a Rear Tire Cause of Accident.

Ennoc McKindley and Aloy Besinger, two Mishawaka young men, narrowly escaped instant death last Saturday night at Elkhart, Ind., when a rear tire of the machine in which they were riding exploded and skidded, throwing Mr. Besinger out and after running on several yards turned and struck a telegraph pole, throwing Mr. McKindley to the pavement, who was driving the car. The accident occurred about 11 o'clock at the famous S curve on Marion st., in the west end of the city, making this serious accident at this point recently. Mr. McKindley lies at the General hospital in Elkhart in a serious condition and hopes for his recovery were given up early Sunday morning, although late in the afternoon he regained consciousness and the doctors said he might recover. It is thought that he sustained a fractured skull and internal injuries to his head, but he had several fractures of the nose and ears. He shows no outward injuries, although his head is badly bruised. Mr. Besinger sustained a broken arm near the wrist and a bad gash on his forehead. He fell head first, throwing out his right arm to break the fall. The bone split in the center and his hand was rammed up in the split, tearing the muscles and ligaments and causing him much pain. He sustained terrible pains with his arm throughout the night, although late Sunday afternoon he was resting easier and was sleeping.

The young men were returning from a lake trip when the accident occurred. It is claimed that the cause of the blowout of the tire was due to the skidding of the car when it slowed up for the first curve. Just as they rounded the curve a loud bang was heard and the car skidded to the curb, striking with terrific force, breaking a rear wheel and throwing Besinger headlong to the pavement. McKindley, who was driving, attempted to right the car but ran onto the curb and down the block on the broken wheel. Owing to the darkness of the street at this point he was unable to see the next curve in his excitement until he was nearing the curb. He quickly turning the machine to the center of the road he lost complete control and the car swerved again, made one complete turn and struck a telegraph pole, throwing the driver out. When the car struck the pole the skid tore off three of the wheels and did considerable other damage.

McKindley was found by his passenger alongside of his car on his face and to all appearances dead. Besinger attempted to raise him and carry him to a nearby house, but then discovered the injuries to his arm. He immediately called assistance from a nearby residence and a physician, who called both men and was taken at once to the hospital and put on the operating table and thoroughly examined.

On Friday, Sept. 5, McKindley won first place and a \$50 check in the Case county fair held at Cassopolis, Mich., with the car which figured in the accident. He carried with him as his mechanic Besinger.

McKindley is the son of Mr. and Mrs. Daniel McKindley of W. Broadway, and Besinger is the son of Mrs. Justine Besinger, 544 W. Third st. Both young men are well known here, as the former is associated with his father in the Independent Tank Line Co. and the latter is employed in the city in the engineering department.

IMPROVEMENT AT LAKE SHORE ADVANCING FAST

Work on the new improvement at the Lake Shore freight house is advancing rapidly and it is expected that the work will be completed this fall. The contractor has been at work on the contract for the past three weeks and has a large force of men. Excavations for the foundations and concrete piles were completed last Monday and the piles set Wednesday. Beams and heavy bracing are partly installed and the roof may be completed next week. The new addition to the freight house extends from the old building to the grain elevator east. East of the elevator a heavy storage platform will be constructed and will extend nearly to Main st.

In addition to this improvement the contract calls for the re-arranging of the office. Several feet will be added and a new lobby will be made several feet larger than the old one. The improvement is the first in 14 years.

ARRESTED; INSULTING GIRLS.
Marion Kripler of this city was placed under arrest Saturday evening by chief of police Harvey Frick when he insulted several girls at the corner of First and Main sts. Lesson in Scientific Complexion Renewing

(From the Family Physician.)
Everyone has a beautiful skin underneath the one exposed to view. Bear that in mind and it will be easier to understand the correct principle in securing a lovely complexion. Nature is constantly shedding the top skin in flaky particles like the scales of a fish. When the skin is in abnormal conditions, or in advancing age, these particles are not shed as rapidly as in robust youth. The longer they remain the more soiled or faded they become—that's the immediate cause of a "bad complexion."
It has been discovered that ordinary mottled wax, to be had at any drug store, will absorb these worn-out particles. The absorption is complete. Nature's work goes on gradually enough to cause no inconvenience in a week or two the transformation is complete. The fresh, healthy, youthful under skin is then "brought in evidence." You who are not satisfied with your present complexion should get a box of mottled wax and try this treatment. Use the wax nightly, like cold cream, a washing off mornings.
